- 290 built-in stitches including 10 one-step buttonhole styles
- 8.3" from needle to arm
- Sideways sewing
- Automatic Height Adjuster (AHA) feature
- Pivot Function for fast and easy fabric manipulation
- My Custom Stitch feature

Beautiful results every time

With cutting-edge features in a compact package, the Innov-is NV1800Q lets you put your own personal stamp on all kinds of fashion and home projects.

Let your imagination take over

With all the support you could want from advanced features, the Innov-is NV1800Q lets you add your own flourish and flair to sewing and quilting.

With sophisticated features the Innov-is NV1800Q computerised sewing and quilting machine allows your imagination to run free. Take advantage of the 290 built-in stitches or make your own with the Brother-exclusive My Custom Stitch feature. Automatic Height Adjuster (AHA) feature and Pivot function all make for easy sewing and quilting projects.

Key features

- **Large clear LCD screen** - displays stitch details and machine settings.
- **Touch sensor keypad with direct stitch selection** - simply enter the number of the required stitch you would like to use.
- **My Custom Stitch** - design your own decorative stitches and save them to memory for future use.
- **Customised stitch settings** - adjust stitch length, width and tension settings and save them to memory.
- **Sideways sewing** - Perfect for sewing patches and appliques on projects using the straight stitch and zigzag horizontal sewing capability.

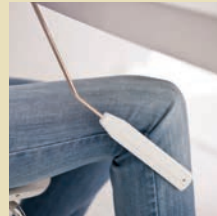

Features and functions

8.3" from needle to arm

Enjoy the expansive work area on the bed of the machine to accommodate large projects.

Knee lift

Free up your hands by using the knee lift to raise/lower the presser foot. Ideal for working on larger projects such as quilts.

Wide table

Expand the sewing area with this extra-large extension table. Ideal for large quilting and sewing projects. The table includes a measurement guide and storage area for your knee lift.

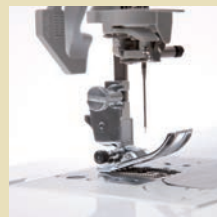

Advanced needle threading system

Simply follow the thread guide, lower the lever and the needle is threaded for you.

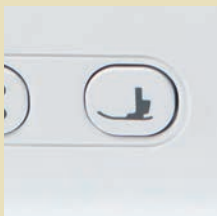

Slide speed

Slide speed control adjusts speed from slow to fast. This can also be set to alter stitch width whilst sewing.

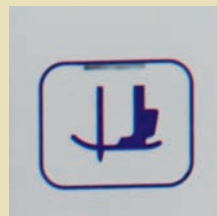

Automatic height adjuster (AHA) feature

The AHA feature helps ensure consistent stitch length on all fabric thicknesses by keeping the presser foot pressure consistent, regardless of fabric thickness, leading to uniform stitch quality across uneven surfaces.

Presser foot up/down button

The presser foot up/down button is conveniently located on the front of the machine.

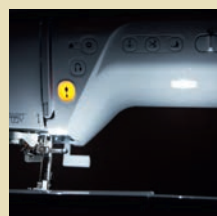

Pivot function

The presser foot automatically lifts as the needle remains lowered. Allows the fabric to be turned quickly and accurately.

Lock stitch button

At the touch of a button, tie-off stitches can be easily sewn at the beginning and end of the stitch. When pressing the button while sewing a decorative stitch, the machine will stop automatically after completing the motif.

LED lighting

Extra-bright LED lighting to illuminate your work area with a clean, natural light.

Hundreds of built-in decorative and utility stitches.

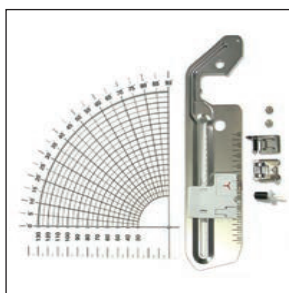

With the Innov-is NV1800Q, you get hundreds of built-in decorative and utility stitches, so you can explore your creativity to the full. With 290 built-in stitches at your disposal, you'll bring plain fabrics to life. The Innov-is NV1800Q is perfect for almost any sewing project, such as quilting, fashion, home furnishing – and much, much more.

The Innov-is NV1800Q gives you these great built-in stitches:

- 10 automatic one-step buttonhole styles
- 58 combinable stitches
- Five built-in fonts (three alphabetic, one Cyrillic, one Japanese)

Optional extras

Circular attachment

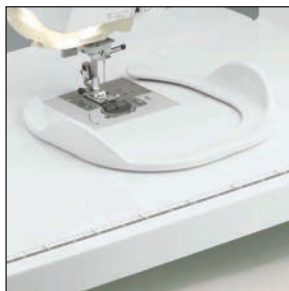

With the measured circular attachment, you can create arcs, concentric circles and more. Use the braiding and cording feet to add those all-important finishing touches, like decorative trims and threads.

Multi-function foot controller

Multi-function foot pedal with heel kick. The heel-kick function can be out of the following four functions, on the machine's setting screen.

- Thread cutter
- Sewing one stitch
- Reverse stitch
- Needle up/down

Free-motion grip

Enjoy the freedom of free-motion embroidery. Grip the fabric securely while moving it easily under the needle.

Bobbin work

Create reverse 'upside down' sewing with speciality decorative threads that don't fit through the eye of the needle.

Side cutter

Cut and overcast fabric edges simultaneously to achieve a professional finish using various overcasting stitches.

Stitch in the ditch foot

For sewing quilt bindings or concealed seams on clothes.

Candlewicking foot

For sewing candlewick stitch.

Straight stitch foot and straight stitch needle plate

Straight stitch foot and needle plate for perfect straight stitching.

5 Groove pin tuck foot

For making pin tuck with large interval.
